

DIRECT DRIVE HVLS FAN

The Direct Drive HVLS Fan features a design with enormous size, performance and savings. Producing a 2-3 mph breeze equivalent to a 4-7 degree reduction in perceived temperature, the Direct Drive works hard to ensure your facility reaches its full productivity potential.

The Direct Drive HVLS Fan is designed to move extraordinary amounts of air, helping your entire facility run smoothly, while providing substantial energy savings. Not only will you feel the difference of a noticeably cooler space, but you'll also reduce stagnant air, alleviate hot and cold spots and keep food dry and fresh. The Direct Drive is available in diameters ranging from 8 feet to 24 feet to accommodate your space and a variety of customization options.

KEY FEATURES

- Extruded aluminum black or clear anodized blades
- 8-24 feet (2.4-7.3 M) in diameter
- Rotary airfoil winglet design
- Trouble shooting from ground level
- Fire shut down capability
- 45 dBA*

OPTIONS

- Mounting Extension
- Additional Powder Coating Options
- NEMA 4X VFD Enclosure
- NEMA 4X Remote Enclosure
- Corrosion Resistant Package (Consult Factory)
- iFan 4.3
- iFan 7.0
- iFan 10.0
- Multi Fan Remote (2-6)
- BAS Integration
- Slave Remote

*Results of sound measurement in the field may vary due to variations in surface types, environment and conditions.
