

# IRONSIDE™ DOCK SEAL HC

Trailer's sharp edges adds up to a shorter life span for seal products. The Serco Ironside™ model IDS-HC Dock Seal is specifically designed to combat these issues while providing superior environmental control.

## SUPERIOR FEATURES

### SERCO EXCLUSIVE UHWR™

**(Ultra High Wear Resistant)** fabric features superior wear resistance. Tested and certified to 40,000+ abrasion cycles – up to 10 times the abrasion resistance of the competitive fabrics tested – for superior wear resistance. (Reference fabric comparison chart)

- ① UHWR full height wear face covers base material on side pads providing superior abrasion and wear resistance, and eliminating the need for side pad wear pleats. The result, improved durability and facility aesthetics.
- ② Exclusive EFC (Encapsulated Foam Chambers) Head Curtain includes UHWR 4" exposure wear panels on corners where the toughest contact with trailers occurs. (See details below)
- ③ Exclusive heat-sealed, full-length yellow guide stripe is embedded in UHWR fabric, effectively welding the two materials together. A superior process versus conventional sewing.
- ④ Exclusive roll-formed, galvanized steel backer extends product life and is superior to wood construction.

### DESIGN HIGHLIGHTS

- Highly resilient open celled polyurethane foam keeps original shape and compresses easily to extend the life of the seal
- 3-year limited factory warranty against defects in materials and workmanship

### EFC HEAD CURTAIN SYSTEM

- EFC (Encapsulated Foam Chambers) is an exclusive system of trapezoidal shaped foam, formed into 1 inch x 3 inch horizontal chambers
- EFC chambers envelop the top rear edge of the trailer including door lock bar cutouts
- Integrated pull rope system allows full adjustability to varying trailer heights
- UHWR 4" exposure wear panels on high wear zone corners of ECF head curtain
