DATE					

- 1. General: "HMI" series control panel featuring touch screen interface, and composite light. Unit to be manufactured by Serco or a Serco approved vendor.
- 2. HMI Functionality: Sequence guide

Password protection for override and maintenance functions Data logging capability Input/output display on HMI without opening the panel Override/alarm logs Preventive maintenance tracking

- 3. Connectivity: 4Sight Connect capability when properly equipped.
- 4. Construction, Enclosure Assembly: Enclosure to be constructed of mild steel unless specified for NEMA4 or NEMA4X. NEMA rated panels to be constructed of suitable composite materials.
- 5. Composite Communications Light: Composite light to be composed of LED display containing red X, amber dash and green circle with error code functionality.
- 6. Control Panel: Steel interlock capable control panel with automatic starter, thermal overload, control circuit breaker with reset capability. Touch screen guides operator through equipment functions only displaying the active equipment as standard. Mushroom style e-stop available as an option, standard size is 20 ½" x 9 ½" x 8". Panel with E-Stop option is 24 ½" x 9 ½" x 8".
- 7. Product Finish: Color to be powder coated ANSI 61 Grey, textured finish.
- 8. Mushroom-style Stop Button: Stops the leveler instantly when depressed. The "STOP" button is maintained contact type which activates a solenoid on the leveler hydraulic system. The dock attendant does not have to continuously hold the stop button to maintain the leveler in a "STOP" position.
- 9. Rotary Fused Disconnect: Optional rotary fused disconnect available (requires 24 1/2" tall configuration).
- 10. Limited Warranty: Serco warrants all components to be free of defects in material and workmanship, under normal use, for a 1-year base period from date of shipment in accordance with Serco's standard warranty policy. The "Base Warranty Period" will begin on the completion of installation or the sixtieth (60th) day after shipment, whichever is earlier. Additional limited 4-year parts only warranty on hydraulic power unit and cylinders. Limited prorated 10-year structural warranty available upon engineering approval of written application.
